

PEPE VS PORK **THE GAME**

Pepe vs Pork is set in a vast, interactive world where players can explore, gather resources, and engage in battles with other players.

About

Pepe vs Pork is an innovative blockchain-based game that revolves around the adventures and battles of Pepe the Frog characters in a vibrant, decentralized ecosystem. Designed to harness the power of blockchain technology, the game introduces a unique blend of gaming and digital asset ownership, enabling players to engage in battles, complete quests, and participate in the ecosystem's governance.

THE GAME IS DIVIDED INTO SEVERAL MODES, INCLUDING:

PvP Battles

Players can challenge each other in one-on-one battles or team up in group fights.

Quests

Players complete various quests to earn rewards and increase their character's abilities.

Tournaments

Periodic tournaments where players can compete for exclusive rewards.

TOKENOMICS

The game introduces its native token, \$THEGAME, which serves as the primary currency within the game's ecosystem. The tokenomics are designed to promote a healthy economy and reward players for their participation and achievements in the game.

Supply 1B

The total supply of \$THEGAME tokens is capped, ensuring scarcity and potential value appreciation over time.

Earning

Players earn \$SOL tokens by winning battles.

Roadmap

Pepe vs Pork aims to create a dynamic and engaging gaming experience that leverages blockchain technology to empower players and introduce innovative gameplay elements. Through its strategic roadmap, engaging game mechanics, and robust tokenomics, Pepe vs Pork is set to become a staple in the blockchain gaming community.

Q1 2024: Conceptualization and development of Pepe vs Pork. Launch of the website and social media channels.

Q2 2024: Alpha release of Pepe vs Pork, including basic PvP battles and a limited set of Pepe characters.

Q3 2024: Introduction of quests and the full character roster. Implementation of the \$THEGAME token.

Q4 2024: Launch of the beta version with added features such as tournaments and a more extensive item marketplace.

Q1 2025: Official launch of Pepe vs Pork. Expansion of the game's universe with new quests, characters, and partnership integrations.

Q2 2025 and beyond: Continuous updates and improvements based on community feedback. Further development of the game's ecosystem, including more intricate governance mechanisms and cross-chain interoperability.
